PROCEDURE

Hennepin Technical College shall provide access to sources of career exploration and job opportunities information to all current and prospective students in the following ways:

1. During the admission application process, students who indicate interest in occupational programs are directed to websites that provide information about career exploration and job opportunities.
2. During student orientation processes, information will be provided about career exploration and job opportunities.
3. Each academic term, notification will be given to all students about the availability of resources for obtaining career exploration and job prospect information.
4. Career information and job prospect information is readily available on the college website.
