	or	
PHIL2400	Medical Ethics	4
	General Education Electives	8

Total Credits 11**General Education Electives**

Hennepin Technical College's 2000-level general education courses meet the guideline of the Minnesota Transfer Curriculum (MnTC).

A complete list of MnTC courses and Goal Areas that can be used to meet General Education requirements can be found at www.hennepintech.edu. The same course cannot satisfy more than one MnTC Goal Area requirement.

Total Credits 8**General Information**

- The Dental Assistant program at Hennepin Technical College is approved by the Minnesota Board of Dentistry, www.dentalboard.state.mn.us.
- The program in Dental Assisting is accredited by the Commission on Dental Accreditation and has been granted the accreditation status of Approval without Reporting Requirements. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611-2678. The Commission's web address is: <http://www.ada.org/en/coda>.
- All Dental Assistant students must earn a C or better in all DNTL (Dental Assistant) courses to continue in the Dental program. In the event that a student earns a D, F or W grade in a DNTL course, the student may repeat that course only one time the next semester that the course is offered.
- Current certification in CPR is mandatory throughout the entire program, including externship. Proof of current CPR certification is also required in order to take the Dental Assistant National Board (DANB) examination.
- Students who have earned their Dental Assisting diploma or degree are eligible to take the Dental Assistant National Board (DANB) and the Minnesota State Licensure Exam. Successful completion of the Minnesota State Licensure Exam allows the individual to practice as a Licensed Dental Assistant (LDA).
- A written notification is required from a physician/obstetrician for a pregnant student to continue enrollment in DNTL1241 Dental Radiology, DNTL1261 Expanded Functions, DNTL1321 Clinical Externship I, and DNTL1325 Clinical Externship II.
- Information is available on the HTC website and from the Enrollment Advisors, HTC Counselors, and the dental assistant program faculty which state the risks of entering this profession in regard to bloodborne pathogens and disease transmission, including needlesticks.

Criminal Background Studies

Minnesota law requires that any person who provides services that involve direct contact with children, patients, and residents at a health or child care facility licensed by the State of Minnesota must have a background study conducted by the state. Individuals with specified felony convictions are prohibited from having direct contact with children, patients, and residents of licensed facilities. Anyone refusing to cooperate in the criminal background study cannot participate in coursework that requires direct contact with children, patients or residents. Students who are disqualified from having direct patient/resident/child contact will not be able to participate in coursework which includes a practical experience. Therefore, completion of coursework for the program major will not be possible without documentation of a cleared background study.

Additional Program Costs
