Hennepin Technical College℠

The Federal Sexual Assault and Violence Prevention (SAVE) Act requires all students receive training about-sexual assault and violence prevention laws and more specifically, HTC policies and procedures. In compliance with Minnesota state law, all new students received this information during new student orientation.

Additionally, newly enrolled students are automatically enrolled in the Sexual Violence Prevention modules on D2L Brightspace. To access the training, log into D2L Brightspace and click the *Sexual Violence Prevention Training* (SVPT) module. Please take the time to complete the training so you are knowledgeable about the law, policies, and procedures that continue to make HTC a welcoming and safe place for all. If you have completed this training at another Minnesota State institution, you may disregard the training modules.

For more information about related policies and procedures, visit **Hennepintech.edu/Safe**. Watch for information and events regarding this topic on campus.

Sexual assault can happen to you regardless of your gender, race, age, class, or sexual orientation. No one is entitled to another person's body, even if the person is under the influence of drugs or alcohol. At Hennepin Technical College only YES means YES.

Types of sexual assault include:

- Forced sexual intercourse
- Date rape
- Marital rape
- Attempted rape
- Forced kissing
- Groping
- Harassment
- Molestation
- Incest
- Child sexual abuse
- Sexual exploitation
- Sexual violence
- Unwanted sexual contact or exposure
- Abusing power for sexual acts
